

2026 North Carolina Girls Flag Football Report

Week 4 — September 28, 2026

First season. NCHSAA sanctioned girls flag football for 2026-27, so there is no previous season to lean on and no outside rating to compare against. Early ratings rest on two or three games a team and will move a great deal.

Ratings basis: 575 results Home field: +1.3 pts Generated October 04, 2026

Picks (190 games)

The favorite in every game still to play this week and next, by the power ratings, with the margin and the chance the favorite wins. Tested on each past week with only the games before it, the model picked 75% of winners and missed the margin by 14 points on average, so a 60% favorite loses often. Picks made before kickoff so far: 4 of 6 winners right (67%), missing the margin by 10.8 points on average.

State stat leaders

The top 10 NCHSAA players in each of MaxPreps' statewide categories, as MaxPreps showed them on Sunday, October 4. Only players on the 62 of 185 NCHSAA teams whose coaches enter stats on MaxPreps can appear, and MaxPreps lists a player only once stats from three of her games have been entered -- some teams have entered only one or two so far. The numbers are as the schools entered them; players with the same total share a place.

What this rests on

- 1339 games stored for 2026, 575 played.
- 207 teams appear in them.
- 189 schools are recorded as fielding a team, 213 as not fielding one (their MaxPreps flag page lists no games).
- 77 games are the second meeting of a pair on one day.
- 5 games have no stated host: no team page listed them, so they came from the scoreboard, which never says who is at home.
- 18 stored games involve no NCHSAA team. They are out-of-state opponents' own games, kept because NCHSAA's RPI counts an opponent's full season, and left out of the results and schedule above.
- Ratings rest on 575 results and a fitted home advantage of +1.3 points. A team needs 5 games to be ranked.
- Source: MaxPreps, which is where NCHSAA tells schools to report results (handbook 4.6.1(h)). NCHSAA publishes no flag football RPI or standings table yet, so the RPI here is computed with the association's own formula, not taken from it.

Power ratings are opponent-adjusted and fitted by classification, so a team is measured against the level it plays. RPI is NCHSAA's formula ($0.4 \text{ WP} + 0.4 \text{ OWP} + 0.2 \text{ OOWP}$) computed from the games in this database, not the association's published figure — it has not published one for flag football.
