2026 North Carolina Girls Flag Football Report

Week 9 — November 2, 2026 · week complete

First season. NCHSAA sanctioned girls flag football for 2026-27, so there is no previous season to lean on and no outside rating to compare against. Early ratings rest on two or three games a team and will move a great deal.

Ratings basis: 1355 results | Home field: +1.1 pts | Generated November 08, 2026

Picks (6 games)

The favorite in every game still to play this week and next, by the power ratings, with the margin and the chance the favorite wins. Tested on each past week with only the games before it, the model picked 75% of winners and missed the margin by 14 points on average, so a 60% favorite loses often. Picks made before kickoff so far: 561 of 691 winners right (81%), missing the margin by 12.8 points on average.

Rank all teams →

State stat leaders

The top 10 NCHSAA players in each of MaxPreps' statewide categories, as MaxPreps showed them on Sunday, November 8. Only players on the 77 of 195 NCHSAA teams whose coaches enter stats on MaxPreps can appear, and MaxPreps lists a player only once stats from three of her games have been entered -- some teams have entered only one or two so far. The numbers are as the schools entered them; players with the same total share a place.

What this rests on

- 1405 games stored for 2026, 1355 played.
- 215 teams appear in them.
- 197 schools are recorded as fielding a team, 208 as not fielding one (their MaxPreps flag page lists no games).
- 72 games are the second meeting of a pair on one day.
- 0 games have no stated host: no team page listed them, so they came from the scoreboard, which never says who is at home.
- 17 stored games involve no NCHSAA team. They are out-of-state opponents' own games, kept because NCHSAA's RPI counts an opponent's full season, and left out of the results and schedule above.
- Ratings rest on 1355 results and a fitted home advantage of +1.1 points. A team needs 5 games to be ranked.
- Source: MaxPreps, which is where NCHSAA tells schools to report results (handbook 4.6.1(h)). NCHSAA publishes no flag football RPI or standings table yet, so the RPI here is computed with the association's own formula, not taken from it.

Power ratings are opponent-adjusted and fitted by classification, so a team is measured against the level it plays. RPI is NCHSAA's formula (0.4 WP + 0.4 OWP + 0.2 OOWP) computed from the games in this database, not the association's published figure — it has not published one for flag football.
